

Manifesto

I have served on the KZN committee for the last 5 years and would like to stand for re-election as I believe that I can continue to make a contribution to promoting the ACFE brand and reputation in both the public and private sectors.

We all know that South Africa is plagued by fraud and corruption across all sectors. Furthermore, the auditing and legal fraternities have taken a battering for turning a blind eye to numerous unethical practices. However recent events seem to indicate that fraud will be tackled head on, and this places our profession in the prime position of investigating fraud and corruption and bringing those responsible to book. We should therefore seize this opportunity to investigate fraud and corruption in an open and transparent manner, without fear and to ensure that we act objectively and in accordance with the code of ethics of the ACFE.

If I am re-elected I will continue to be an active committee member that will:

- Continue to enhance the reputation of the regional ACFE Board, through promoting workshops, training and development
- Continue to work with my academic network and to try to influence curriculum changes at tertiary institutions
