

MANIFESTO

Leonard James Martin Coetzee CFE

I am passionate about fighting Fraud and Corruption with over 30 years of experience in doing just that.

I believe the only way to stay ahead of syndicates and criminals is team work and networking with similar minded individuals in South Africa, on our continent and globally, to fight the “Good Fight”

I believe the ACFE as a professional global body facilitates this, where crime fighters and fraud practitioners each specializing in their own fields of expertise and knowledge are able to connect, brainstorm, share information, teach and learn from each other to combat Fraud and corruption.

I am determined in growing the member base and exposure of the ACFE in South Africa and in KZN.

I believe with the right individuals on a committee all with their own strengths, utilization of technology, and social media, improved communication on Regional and National events with constant networking, will grow the member base and attendance of ACFE hosted events.

Being a CFE and an ACFE Regional Committee member is not just about showing up and doing lip service or criticizing what has or is being done by the Committee or the ACFE SA. A committee member needs to be active, support the Regional Chair and the CEO of ACFE SA, roll up their sleeves, get the work done as a team, and get involved with all the events, to further the mission and vision of the ACFE SA and International ACFE.
