

## **Manifesto**

I have been a member of the ACFE and a Certified Fraud Examiner since 2006. I joined the Pretoria regional committee during June 2006 and served as a member until 2012 when I took over as chairperson until 2016. As a committee we endeavoured to involve as many of our members as possible and made an effort to ensure our training events were practical and applicable to all members on various levels.

I strongly believe the ACFE as an organisation is a most relevant professional body and should be compulsory for all forensic practitioners. After all these years I am still convinced that the ACFE as a professional body is the cement in the “wall against fraud and corruption” that binds the various disciplines in the forensic industry together. It can only be beneficial for the forensic profession to have a body, like the ACFE, that addresses the development needs of its members.

I believe it is time to take the ACFE to the next level through the continuous development of our members and improvement of our service to our members.

I support the ACFE Manual for members and believe in the creation of improved professional standards for ACFE members.

I am all for advancing relationships with other relevant professional bodies related to and aligned with our industry.

I believe that the Pretoria region is today more relevant than ever before and has a significant role to play in growing our membership and the development of our members.

Should I be elected, I am prepared to serve the Pretoria regional committee in accordance with guidelines received from the South African Chapter.
